

NEW Volunteer Opportunity

Facilities Team, Laguna Environmental Center

900 Sanford Road, Santa Rosa, CA

Are you a handy man or woman interested in sharing your skills with your local community? Help us maintain and improve the infrastructure at the Laguna Environmental Center on historic Stone Farm! Volunteers assist in small to large projects, depending on skill set. Tasks may include carpentry, plumbing, electrical, and general building maintenance. Share your expertise or learn new skills by getting involved today!

Schedule: Ongoing, with a minimum commitment of 3-4hrs per month.

Shift: Hours can be arranged to fit volunteer's needs

Location: Laguna Environmental Center, 900 Sanford Road, Santa Rosa, CA 95401

Required Experience: Skills in any and all areas of building trades are desirable, plus a willingness to troubleshoot and find creative solutions on a limited budget.

To Apply: Please respond to these questions by email: volunteer@lagunafoundation.org

1. Describe your experience with various building skills (e.g. carpentry, plumbing, electrical, and general building maintenance).
2. What skilled areas are you most interested in volunteering in? And what motivates you to volunteer?
3. Do you prefer working by yourself, with others, or it doesn't matter either way? **This could also be a great group opportunity, if you're interested!**
4. What is your availability (weekdays, weekend, daytime, evenings)? And can you commit to a 3-4 hours per month?
